

Keigo Victor T. Fujita

Experienced Full Stack Web Developer with over 5 years of expertise in building high-quality, robust and scalable web applications using Laravel, MySQL, and Vue JS. Focused on enhancing code readability, implemented efficient coding practices and optimized development workflows to drive productivity and ensure project success.

Work Experience

Business Analyst - Web Dev, Concentrix Philippines

June 2021 - June 2024 (Rendering)

- Architected and developed secured and scalable web applications using Laravel, Vue JS (SPA), and MySQL, driving increased user engagement and satisfaction.
- Worked closely with end-users to understand their needs thoroughly, ensuring solutions were precisely aligned with their requirements, resulting in highly effective applications.
- Collaborated effectively with other developers within an Agile framework methodology, promoting teamwork and efficient project delivery.
- Created comprehensive documentation on code best practices, scaffolding, and usage guidelines for Laravel and Vue.
- Created high fidelity prototypes and optimized application processes to enhance performance and usability.

ERP Developer, Freelance

March 2020 - June 2021

- Developed ERP application using PowerBuilder and MS SQL, ensuring functionality aligned with business needs.
- Enhanced the UI/UX of the application to improve user experience and usability, resulting in increased user satisfaction.
- Identified and fixed application performance issues, optimizing slow queries and reporting queries to improve system efficiency and responsiveness.
- Designed and implemented multiple modules within the ERP application to meet specific business needs and requirements.
- Regularly provided progress reports to stakeholders, ensuring transparency and informed decision-making at every stage of the project.

Educational Background

Bachelor of Science in Computer Science

Informatics International College Cainta

May 2018 - April 2021

Senior High School - Computer Programming

Gardner College Cainta

May 2016 - April 2018

Contact

Karangalan Village, Cainta Rizal

Skills

Programming Languages

- PHP
- HTML, CSS, JavaScript
- MySQL, MSSQL

Libraries & Frameworks

- Laravel, Livewire, Sanctum
- Vue JS, JQuery, Alpine JS, Axios, Vite
- Tailwind CSS, Bootstrap

Technical Skills

- API Development & Integration
- Open Street Maps Integration
- High Fidelity Wireframing
- Azure AD OAuth Integration
- Development Process Documentation

Tools / Software

- GitHub / Git
- JIRA
- Azure AD
- VS Code
- MySQL Workbench
- Figma Wireframe
- Postman

Awards & Certifications

- Innovator of the year 2023
- Innovator of the year 2022

Additional Information

- Served as the Development Lead, guided team development efforts for successful project execution.
- Facilitated internal learning sessions on the latest web technologies.
- Developed a standardized web app scaffolding for streamlined project initiation in future web projects.
